**From Bengt Ankarloo Gustav Henningsen : Early Modern European Witchcraft: Centres and Peripheries
(Clarendon Paperbacks)** Early Modern European Witchcraft: Centres and Peripheries (Clarendon Paperbacks):

The history of witchcraft and sorcery has attracted a great deal of interest and debate but until now studies have been largely from the Anglo Saxon perspective. This book shows how that approach has blurred our understanding and definition of the issues involved and sheds new light on the history of witchcraft in England. What had thus far been seen as peculiar to England is here shown to be characteristic of much of northern Europe. Taking into account major new editions of this book and an English translation of *Hæmera* (1400) and *Europa* (1700) published in Swedish in 1987 will be helpful to scholars and advanced students. History of New Books Opens new perspectives with almost every article. This is a remarkable achievement.
