**By Galileo Galilei : Sidereus Nuncius, or The Sidereal Messenger** galileo galilei february 15 1564 january 8 1642  
galileo galilei was a italian physicist mathematician astronomer and philosopher who played a major role in the man in  
the moone is a book by the english divine and church of england bishop francis godwin 1562 1633 describing a

quot;voyage of utopian discoveryquot; long Sidereus Nuncius, or The Sidereal Messenger:

Galileo Galilei's Sidereus Nuncius is arguably the most dramatic scientific book ever published. It announced new and unexpected phenomena in the heavens " unheard of through the ages " revealed by a mysterious new instrument. Galileo had ingeniously improved the rudimentary " spyglasses " that appeared in Europe in 1608 and in the autumn of 1609 he pointed his new instrument at the sky revealing astonishing sights: mountains on A second edition of this widely used translation with a new preface summarizing Galileo scholarship since 1989, an expanded bibliography, and very slight revisions and corrections in the translation as well as in the introductory and concluding essays.
