16 of 16 review helpful THE REST OF THE STORY By SCIPIO The Pope's Jews by Gordon Thomas describes the words and actions of Pope Pius XII during World War II. World War II was like an exploding volcano hurling death and destruction everywhere. The casualties were enormous. Russia had about 10 million war dead and about 14 million dead as a result of crimes against humanity, religious and class persecution. In Poland. This revelatory account of how the Vatican saved thousands of Jews during WWII shows why history must exonerate Hitler's Pope. Accused of being silent during the Holocaust, Pope Pius XII and the Vatican of World War II are now exonerated in Gordon Thomas's newest investigative work. The Pope's Jews. Thomas's careful research into new first hand accounts reveal an underground network of priests, nuns and citizens that risked their lives daily to protect. Many may find fault with the pope's decision to keep silent and not single out by name the Nazis or their crimes; however, Thomas is convincing in his revelations about the pope's secret work and relays how complex and sensitive these issues were for.
