2 of 2 review helpful Please oh please make a kindle version By JaShong King This book was eminently useful on my trip to Rome It contained many of the important inscriptions as well as some I hadn't noticed before A personal favorite being the monument to Honorius and Arcadia in the Forum which had Stilicho's name crossed out after he was executed I would've totally missed that weathered marble block if the book hadn't Rome's oldest known Latin inscription dates from the sixth century BC the most recent major specimen was mounted in 2006 a span of more than two and a half millennia Remarkably many of these inscriptions are still to be found in situ on the walls gates temples obelisks bridges fountains and churches of the city Classicist Tyler Lansford has collected some 400 of these inscriptions and arranged them with English translations into fifteen This book is wonderful My head is full of information I didn't know about Rome despite my many years there Lansford's evocative depictions of monuments cityscape and memorable humans have inspired me anew with the fascination of Rome Mary T Boatwright
