Nicoletto Giganti's 1606 Rapier Fencing Curriculum:

1 of 1 review helpful Renaissance Art Revived By Michael L McQuown Mr Leoni has taken a manual from the Italian

Renaissance and brought it fully into the 21st century. Since the 1970s there has been a growing interest in the personal combat and defensive techniques of bygone eras. Now referred to as Historic European Martial Arts this movement has grown into a worldwide activity with groups as far from the western world. Perhaps no other weapon represents Renaissance Italian fencing like the rapier. But do we know how it was used and how it was taught? This book takes you to the fencing School or Salle of celebrated renaissance rapier Master Nicoletto Giganti of Venice one among the period teachers leaving instructions on the use of this weapon. More uniquely his 1606 text The School or Salle is a veritable training curriculum with its stepwise lessons and easy to follow explanations.
