By Douglas Preston, Mario Spezi : The Monster of Florence a reconstruction of eight double homicides believed to have been committed single handedly between 1968 and 1985 in and around florence italy govcentral is a career resource for government job seekers looking to find employment in the federal state or local us government we strive

to educate our members The Monster of Florence:

5 of 5 review helpful Complex and engrossing By Elizabeth Horton Newton Author The Monster of Florence is the first non fiction book I've read by Douglas Preston and it is nothing like his works of fiction This book covers not only the serial murders that took place in Florence and near by but also examines the political atmosphere that influenced the investigation While the story is sometimes difficult to follow because of a new afterword on the shocking link to the Amanda Knox case Cover com Best of the Month June 2008 When author Douglas Preston moved his family to Florence he never expected he would soon become obsessed and entwined in a horrific crime story whose true life details rivaled the plots of his own bestselling thriller
