Coin From Calabria: Discovering the Historical Roots of My Calabrian People:

5 of 5 review helpful Enchanting Facts Myths And Theories By propertius Let me begin by saying that do to stylistic concerns I had been tempted to give the book 4 stars however on a personal level being Calabrese I am very comfortable giving it 5 stars because of the book s effect on me With that caveat declared let me say that I did find the intertwining of the story of the ancient coin which was found by the author Many years ago while a child in the magical Region of Calabria in Southern Italy I found an ancient coin Decades later I sought and finally found its amazing origins The investigation for my coin s origins was paralleled by an in depth search for my ancient Calabrian roots What I found was a mesmerizing history of horrifying natural catastrophes invasions by both brutal and civilizing peoples and other enthralling events that will leave the reader enlightened a From the Author This book will take the reader back in time through various layers of Calabria s history The reader will be amazed by the richness of each layer and will gain a much deeper appreciation of a little known but very special Region of Italy
