am able grounds of an opinion which i have held Women of the Shadows 2 Ed: Wives and Mothers of Southern Italy:

3 of 3 review helpful gorgeous moving painstakingly rendered book a work of art By Patricia Loftfjeld I am specifically interested in Italy which is why I sought this book out and if you have any interest in Italy at all this is an absolute must read But I would recommend it widely to anyone who wants an idea of what peasant lifestyle was how most of the world lived up until only one generation ago and how much o With haunting photographs nbsp and piercing descriptions Women of the Shadows depicts the secluded women of southern Italy and their passionate painful heartrending existence Cornelisen who lived among these women in the mountainous villages of Lucania after World War II reveals their struggles during a time when most of their men had to leave for factories in the industrial north The women remained behind to work the fields There s Peppina Ninetta Teres Required reading for all those whose work is with poor people Library Journal One of those rare works that deserves a place alongside Oscar Lewis s Children of Sanchez nbsp and James Agee s Let Us Now Praise Famous Men
