Dutch historiography has traditionally concentrated on colonial successes in Asia. However the Dutch were also active in West Africa, Brazil, New Netherland, the present state of New York and in the Caribbean. In Africa they took part in the gold and ivory trade and finally also in the slave trade, something not widely known outside academic circles. P.C. Emmer, one of the most prominent experts in this field, tells the story of Dutch involvement in the trade from Emmer offers a compelling and well-researched story of the relationship between power and greed in shaping the dealings of the Dutch with the non-European world before 1850 and how this in turn shaped Dutch history. Emmer's account of the Dutch slave trade is a must-read for anyone interested in the history of the transatlantic slave trade.
