By Lutz Klassen : Along the Road: Aspects of Causewayed Enclosures in South Scandinavia and Beyond (East Jutland Museum Publications) Along the Road: Aspects of Causewayed Enclosures in South Scandinavia and Beyond (East Jutland Museum Publications):

This volume takes a new look at causewayed enclosures in South Scandinavia based on a research area restricted to the Djursland Peninsula in eastern Jutland The Djursland Peninsula in eastern Jutland was selected as region of concentration because of the richness of the region in terms of megalithic graves and burial mounds and because it has the largest number by far of known Neolithic enclosures within the northern TRB Group distribution area
