This volume deals with the development implementation and maintenance of Scottish networks in Northern Europe from c 1600 1746 The book contains nine chapters divided into three parts of original and innovative archival research. After an introduction providing a theoretical overview of the subject the first section focusses on the associations of kith and kin place and nation and confessional loyalty tested in the numerous case studies throughout the book. This is a good book especially on religious and political aspects of the Scottish diaspora. It has interesting things to say about a wide range of topics including identity espionage and credit in all senses of the word. The international perspective
